Skin Concern

Ingredients

Function

Wrinkles	Hexapeptide-40	Anti-wrinkle effect
Dry, dehydrated	Hyaluronic Acid	Draws water to the skin
Compromised skin barrier	Multi-peptide Complex	Regulate keratinocyte activity

LUMI-MESO ELITE

Fine lines	S-DNA	Supports cellular repair
Dark spots / uneven skin tone	Vitamin C	Inhibits melanin production
Rosacea-prone / oily skin	Niacinamide	Increases ceramides / reduces inflammation
Inflammatory acne	B12	Supports healing of inflamed lesions

LUMI-MESO BRIGHT

Melasma / Pigmentation	Tranexamic Acid	Interrupts pigment signals to melanocytes
Acne / breakouts	Niacinamide	Supports barrier repair / regulates oil production
Dull skin / oxidative stress	Glutathione	Reduces pigment intensity / neutralises free radicals
Uneven skin texture	Vitamin C	Supports skin renewal
